Corona Virus
(Covid-19)

Sekhem Support Therapy for Corona Virus

The free **Sekhem Support Therapy for Corona Virus** is a form of Alternative Medicine. It is based on a special kind of Natural Energy that can be received via a technique known as "Distance Healing". Distance Healing means energy is sent from one place to another and that the energy itself is able to travel from one place to another. For example, a person in one country could send energy by Distance Healing to someone in another country and the receiver could receive the energy instantly.

Sekhem is a kind of Natural Healing Energy and is similar to Reiki. Distance Healing is a technique that is also used with Reiki. Sekhem helps to heal on the physical, emotional, mental and spiritual levels.

The **Sekhem Support Therapy for Corona** has been specifically designed to help people with the Corona Virus (Covid-19). It is designed to help provide physical, emotional, mental and spiritual support. This therapy is free. It can be received by an infinite number of people and an infinite number of times, all around the world.

The **Sekhem Support Therapy for Corona** is also designed to help people who **do not have** the Corona Virus but who are **having problems because of the virus**. For example, it can be used to help people who may be feeling stressed or worried or depressed, due to problems caused by the virus. It can be used to help people who are stressed about money because they have lost their jobs. It can be used to help people who are worried because a family member has the virus. If someone is having any problem that is caused by the virus, then they can ask to receive the **Sekhem Support Therapy for Corona** and it may be able to help them and give them support.

Sekhem therapy is not guaranteed to work for everybody. There may be some people who do not feel anything when receiving Sekhem Energy. However, the majority of people do feel the energy and the majority of people do find Sekhem to be therapeutic and beneficial.

Receiving the Sekhem Support Therapy for Corona

There are **2 ways** that a person can receive this therapy:

1. The first way is for the person to lay down, take a moment to become calm and relaxed, and then **ask in their mind** (like saying a prayer): **"Can I now please receive the Sekhem Support Therapy for Corona."** (Or if you prefer, you can say the words out loud.) Then the therapy session will begin and the energy will come to the person and start working on them.

The therapy can also be received while sitting in a chair if necessary but laying down is usually better.

Once someone has asked to receive the therapy, all they have to do is relax and let the energy work on them. The therapy session usually goes for about 35 – 45 minutes. It is best to choose a time and place where you will not be disturbed during this time, and also where you will be comfortable and warm.

During the therapy session, a person may experience feelings of tingling or warmth in the body. They may also experience feelings of energy flowing through their body. The person may even have visions or have memories come to mind. If you fall asleep during the therapy session, that is fine and the therapy will still work properly.

A person can ask to receive this therapy as often as they feel they need to, with a recommended **maximum of 3 sessions per week** and a recommended minimum of 1 session every 2 weeks.

The **Sekhem Support Therapy for Corona** has been programmed automatically so that nobody can overdose on the energy. **Nobody can accidentally receive too much energy.** If you do not need all

the energy from the therapy session at that time, then you will only receive as much energy as you need at that time and the rest will automatically come to you later, as you need it.

2. The second way for a person to receive this therapy is for **somebody else** to ask for the therapy to **help that person**. To do this, somebody else should ask in their mind (like saying a prayer) - or say the words out loud - "**I ask for the Sekhem Support Therapy for Corona to please help **<person's name>**".**

For example, if somebody wanted to ask the therapy to help someone called **Jane Brown**, they could say "**I ask for the Sekhem Support Therapy for Corona to please help **Jane Brown**". Then the energy for the therapy session will be able to automatically come to that person **when the time is right for them** and help them **in the way that is right for them**.**

The person **will not need to know** they are going to receive the therapy session – it will just happen by itself, probably when they are asleep some time. The person probably will not even be aware that they have received the therapy session but it will still do its work on them and help them.

Please note, you cannot force this therapy upon anybody. The receiving person will only receive the energy from the therapy session if they subconsciously choose to accept it.

This second way for someone to receive the therapy is for when the receiving person hasn't heard about the therapy, or when they are sick or unconscious, so nobody can tell them about this form of therapy.

As mentioned above, the **Sekhem Support Therapy for Corona** has been programmed automatically so that nobody can overdose on the energy. **Nobody can accidentally receive too much energy**. Even if 100 people all asked the therapy to help the same person, that person could not accidentally receive too much energy.

The receiving person can only ever receive **as much energy as they need at any particular time**. If they don't need all the energy from the therapy session at that time, then they will only get as much energy as they need at that time... and then later, more energy will come to them automatically **as they need it**.

If you are asking the **Sekhem Support Therapy for Corona** to help somebody other than yourself, it is ok to ask this every day if you want to. Asking every day would not mean the receiver would get a new therapy session every day. However, it would mean that the effects of the therapy would be more powerful than if you only ask once a week for example. It would also mean that the person could automatically receive another therapy session every time they need another one.

Other People May Also Try Receiving This Therapy

Although the **Sekhem Support Therapy for Corona** has been specifically designed to help people who have the Corona Virus (or to help people who don't have the virus but who are having problems that are caused by the virus), **other people may also try receiving this therapy**.

This is in order to help people understand more about what the therapy is and how it works, so they can feel confident about recommending this therapy to people who do have the virus, or to people who have problems caused by the virus. In the case where someone tries receiving the therapy so as to understand more about it, the therapy will still be beneficial to them.
